

The Ultimate Trailer Lift

Lifts for all your transportation needs.

Delivering diversity... By design.

The entire process, from design, manufacture and powder coating to assembly and packing for shipment, is done in-house at our Fort Worth facility.

Our product development team continually works to upgrade and improve our products.

Quality is important to us. We take pride in our customer support and expedient service and shipping support.

Before shipping, each lift is checked twice to make sure it meets or exceeds specifications. Then it is wrapped once with cardboard and twice with plastic wrap for protection.

GTR SERIES LIFTS

The GTR Series Lifts have been designed with low-profile columns to give you the widest drive-through clearance in the industry. Whether you have a dirt, late model car, sand rail or stock car, be assured that you can easily drive it between the columns. The open center allows easy access to the underside of the car. It can be easily covered with steel or aluminum to haul motorcycles or 4-wheelers, and it protects the car below.

Features of the GTR Series:

- 12-Volt power unit
- Sliders inside the column
- 3" Cylinder standard
- Easy assembly
- Durable powder coated finish
- Pulley covers standard
- Safety lock with single-point release
- Aircraft-quality cables
- Aluminum ramps with every lift
- Signature low-profile column design

Options:

- Balcony systems
- Steel center sections
- Aluminum center sections
- 110-Volt power unit
- Tie-Down systems or D-rings

DRAGSTER LIFTS

Our Dragster Lifts have been designed with low-profile columns to give you the widest drive-through clearance in the industry. You can easily haul four dragsters in one trailer. A full floor allows you to haul motorcycles, sand rails, golf carts, etc.

Features of the Dragster Lifts:

- 12-Volt power unit
- Widest drive-through available
- Sliders inside the column
- 3" Cylinder standard
- Easy assembly
- Durable powder coated finish
- Pulley covers standard
- Aircraft-quality cables
- Tapered drive-up ramp
- Signature low-profile column design

Options:

- Aluminum floor
- 110-Volt power unit
- Tie-down systems or D-rings

“TOY TOTER” LIFTS

Our Toy Toter Lifts are designed with you in mind. Now you can carry it all! Want to take your motorcycle, golf carts, go-carts or ATV's with you on vacation? No problem. Toy Toters are perfect for whatever toys you might have. Carry them, play with them, and even store them when you return. Each Toy Toter lift is custom-built to meet your needs and specifications.

Features of the Toy Toter Lifts:

- 12-Volt power unit
- Widest drive-through available
- Sliders inside the column
- Easy assembly
- Durable powder coated finish
- Pulley covers standard
- Safety lock with single-point release
- Aircraft-quality cables
- Aluminum ramps with every lift
